

GreatPlainsTransit End User Manual Index

Purpose Of The Product

GreatPlainsTransit is a transportation operations system for dispatching ERP delivery orders, managing manifests and stop lines, tracking drivers, capturing proof of delivery, handling issues, sharing customer tracking, and replaying ERP handoff work.

Who The Product Is Geared To

The product is for dispatchers, delivery managers, customer service staff, back-office ERP recovery staff, administrators, and drivers using the field PWA.
